

Facts about pumpkins

Their name originates from a Greek word pepon (large melon).

Pumpkin is a fruit, not a vegetable.

Most pumpkins are orange.

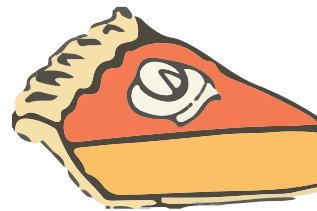

They are one of the most popular crops in the US.

They are a super popular Halloween decoration.

Almost all parts of a pumpkin are edible.

The oldest seed of pumpkins were found in Mexico (around 7000 BC).

They are used in all kinds of foods - soups, desserts, meals, juices...

They grow on all continents except on Antarctica.
